PROFESSIONAL SUMMARY

Junior .NET Developer | CS Student Backend-focused developer with hands-on experience in .NET and SQL Server. Currently pursuing Computer Science degree while working on development projects. Strong foundation in C#, .NET Core, and database management. Experience with Python and basic JavaScript. Provided programming tutoring to peers. Eager to grow and contribute to meaningful projects while learning from experienced developers.

EDUCATION

Computer Science, Expected in
06/2026
Beder College University

HOBBIES AND INTERESTS

- Exploring New Programming Languages
- Building Small Apps
- Exploring AI and Machine Learning
- Playing Chess
- Contributing to Open-Source

SKILLS

- Git
- Fullstack Development
- Problem Solving
- Backend Development
- Web Applications
- C#
- Sql
- Asp .Net Core
- Authentication System

WORK HISTORY

Teacher Assistant, 11/2024 - Current

Beder College University - Tirana, Albania

Working alongside faculty as part of my professional practice program, assisting in system administration and IT infrastructure maintenance

Primary responsibilities include:

- Supporting server maintenance and configuration (Windows Server, Linux)
 - Assisting with network infrastructure monitoring and troubleshooting
 - Managing hardware inventory and performing basic repairs
 - Helping with OS installations and system updates
 - Providing technical support for faculty and lab environments
- Gaining hands-on experience in IT infrastructure while completing my computer science studies. This role has strengthened my understanding of system administration and network fundamentals

Freelance .Net developer, 09/2024 - Current

Upwork - Tirana, Albania

Independent developer specializing in small to medium-sized .NET projects

- Worked directly with clients to deliver custom software solutions including:
- Building CRUD web applications using .NET Core
- Developing custom APIs and backend services
- Creating and maintaining SQL Server databases
- Implementing data processing tools for small businesses
- Successfully completed multiple projects
- Focusing primarily on backend development with C#, .NET Core, and SQL Server

Freelance Programming Tutor, 09/2024 - 11/2024

Fiverr - Elbasan, Albania

Independent programming tutor providing personalized coding education and mentorship to beginners and intermediate learners

- Specialized services include:
- One-on-one C# programming tutoring sessions
- Debugging help and code reviews for students
- Guidance with basic .NET projects and assignments
- Teaching fundamental programming concepts and best practices
- Helping students troubleshoot their coding challenges

Fullstack Developer, 06/2024 - 09/2024

Asp .Net

• Python

• Machine Learning

• Database Design

Switch Technologies - Elbasan, Albania

- Worked on an Asp .Net real estate agency management application
- Optimized database queries to improve application performance and reduce response times by X%
- Developed a secure authentication system that met industry standards for data protection and privacy

PROJECTS

- **Nest Albania:** Developed a real estate management system using .NET Core 8 and MVC. Focused on backend development, creating features like property listings, agent management, and user authentication using repository and service patterns with dependency injection for maintainable code.
- **Second Hand E-commerce Web App:** Contributed to the backend of an open-source second-hand marketplace web app using .NET and Web API. Implemented a secure authentication system and managed user data operations with the repository pattern and dependency injection for clean code.
- **TestProgram:** Built a full-stack .NET 8 MVC application for an online testing platform for students and teachers. The backend features secure authentication and leverages the repository pattern with dependency injection for efficient, maintainable code.
