## Profile

Motivated software engineer with a passion for developing innovative solutions that enhance user experience. Skilled in utilizing modern development tools and methodologies to deliver high-quality applications efficiently. Dedicated to continuous learning and applying best practices in software design and development to foster technical growth and collaboration within teams.

## Education

**Oct 2023 - Present**

**Computer Science**
Beder College University, Tirana Albania

- Gained a deep understanding of algorithms and data structures, fostering efficient problem-solving skills and optimization techniques.
- Developed proficiency in programming languages including Java, Python, and C++, enabling the creation of robust software solutions.

## Employment

**Aug 2024**

**Programming Tutor**
Fiverr, Tirana Albania (Remote)

- Designed and delivered personalized programming lessons to students, fostering a strong understanding of core computer science concepts.
- Provided one-on-one tutoring sessions aimed at addressing individual learning needs and accelerating student comprehension of programming.
- Guided students through complex topics such as algorithms, data structures, and software development practices using hands-on methods.

**Jul 2024 - Present**

**Programming Projects**
Upwork, Tirana Albania (Remote)

- Developed and implemented multiple software projects using various programming languages, focusing on efficient algorithms and data structures.
- Developed and *optimized the back-end* code for multiple .Net Web Api codebases.
- Used Python to write multiple *web scraper* scripts for multiple clients.
- Implemented simple *machine learning algorithms* for some databases.
- Created integrated software tools that *automate* routine tasks and enhance productivity, facilitating smoother workflows across development teams.

# Internships

**Jun 2024 - Oct 2024**

**Full Stack Developer**
Switch Technologies, Elbasan Albania

- Collaborated with cross-functional teams to design and implement RESTful APIs, ensuring seamless communication between front-end and back-end services.
- Participated in debugging and troubleshooting issues across the full stack, leveraging strong problem-solving skills to maintain high code quality and performance.

**Nov 2024 - Present**

**Professional Practice**
Beder College University, Tirana Albania

- Collaborated on software development projects utilizing Java and Python to implement innovative solutions in a professional practice environment.
- Developed a comprehensive software application for a real-world client, applying advanced concepts in algorithms and data structures to meet functional requirements in a professional practice setting.
- Contributed to the documentation of software development processes and technical specifications, ensuring clarity and consistency in project deliverables.
